FIREMEN'S PARADE. - The Brooklyn Firemen turne! out last night in force to receive Phenix Company No. 5 of New-Haven, Conn. Early in the evening Phenix Company No. 12 of this city, escorted by Nos. 11 and 21, proceeded to the depot in New-York to receive the visitors. They arrived on the Brooklyn nide about 91 o'clock. Some dozen or more Fire Comanies, with torch lights, and bands playing, awaited their arrival. When on this side the visiting Company were received by the Companies in waiting, and estorted through Falton, Henry, Atlantic and Court streets, Myr:le, Redford, Davis and Kent avenues, to Vilson's Saloon in Myrtle avenue, where accommodations were provided for the visitors. They are the guests of No. 12 Engine Company while they remain here. Firemen's Hall was illuminated, and firearms were discharged, in honor of the visiting Company. They had a fine time all round. Their display was very good.

THE LIQUOR DEALERS' ASSOCIATION .- A meeting of the Kings County Liquor Dealers' Association was held at People's Hall in York street, yesterday afterneon. A large number were in attendance and an animated discussion ensued on a motion to the effect that all members of the Association who applied for license under the new law should be expelled from the Associstion. The motion was carried by a large majority and the meeting adjourned to assemble in Williams burgh on Monday afternoon next.

### NEW-JERSEY ITEMS.

As Unfaithful Domestic.—A domestic named Maria Donobbe was obtained in a New York intelligence office on Wednesday by Mr. H. Westbrook of Jersey City, and yesterday she was arraigned before Recorder Bedford and Justice Redgers, charged with stealing three silk dresses and other articles. The clothing was recovered and she was sunt to the workhouse for three months.

PRECAUTIONS.—Since the death of Glennon, who was run over on the New-Jersey Rallroad track about two weeks since, the Company has caused a fence to be constructed along the line of the road from Warren to Prospect streets, and taken other precautions to prevent a recurrence of such an accident.

The Hudson County Court of Oyer and Terminer commenced the criminal trials yesterday afternoon.

WHICH IS THE TRUE BOARD OF TRUSTEES.

Who D. Berrian sgt. The Methodist Society of the City of
New-York.

This was a motion to set aside a judgment rendered
against the defendants for moneys alleged to have been
advanced by Cornelius Berrian for these defondants,
amounting to about \$2,500. The motion was made
upon the ground that Cornelius Berrian, alleged to be
the President of the corporation, was not at the time
of the service of the summons and compinint the President of the Board of Trustees, and that therefore the
suit was not properly commenced.

suit was not properly commenced.

The history of the society, which was fully discussed upon the argument, is in brief as follows: In 1820 certain members of the Methodist Episcopal Church, certain members of the Methodist Episcopal Church, becoming discontented with its too conservative views on the subject of Slavery, broke off their connection with it and started a new society, under the pastoral charge of the Rev. Wim. S. Stilwell, who continued in active service antil 1851, when he was succeeded by the Rev. J. M. Smith. Mr. Smith, with the view, it is presumed, of returning into the old fold, started a Conference—the society had hitherto been conducted on Congregational principles—by the action of which certain obnoxion; members were expelled.

Finally, the society retailated upon Mr. Smith and ejected him and his adherents, among whom were the present piaintiff, his father and brother-in-law.

An action was subsequently brought against the society by some of the exiles, in order to get possession of the church, which was discontinued after a pendency of three years.

of the church, which was discontinued after a pendency of three years.

This action was then commenced for the amount of an alleged claim against the society, and the plaintiff served his summons upon his father, as president of the board of trustees, and thus representing the society. A judgment was therefore taken by default, which the party now in possession of the church, &c., moves to set aside on the ground that their trustees are such both de facto and de jure—which is therefore the question at issue. The case was argued a week ago by C. Schaffer for the plaintiff and D. McMahou for the defendants.

Bosworth, J.—The defendant moves to set aside a judgment rendered against it by default, on the 25th day of March, 1857, for \$2,507 99 demages and costs. The action was commenced by the service of the summons and compaint, on the 25th day of February last, on Cornelius Berrian, who is described as President of the defendants Board of Trustees, and its managing agent.

The defendant moves, not only to set aside the judgment, but the summons and the complaint, on the ground among others, the contracts Berrian was not any officer of any kind of the de-

the summons and the complaint, on the ground, among others, that Cornellus Berrian was not any officer of any kind of the de-

fendant.

The affidavits of both sides, although in painful conflict with each other, leave no doubt that, some time in 1853, neither Cor-nelius Berrian, nor those alleged to be, with him, trustees of other officers af the defendant, have in fact seted, or been per-

centre of the defendant, have in fact acted, or been permitted to act as such.

John P. Concklin was the acting President of the defendants' trustees when this action was commenced. He and his associates were, so far as stantory formalities are conserved, regularly elected officers of the church and society, have soled as such, and have had, and now have, exclusive possession and control of the church edifice and the temporalities of the society and the persons who, for over five years, have met in the church edifice for worship have elected the officers of the society and appointed and supported its preachers, must be deemed, for all the purposes of this motion, as competent to appoint the trustees. And the trustees and officers appointed by them, in conformity with the provisions of the statute, and who have, in fact, acted and are continuing to act as such, are, at least, trustees and officers of process be made.

How much a want of conformity in their proceedings to the discipline of the society may affect the title of the acting trustees or their agents to their officers, cannot be investigated on this motion.

tees or their agents to their officers, cannot be investigated on this motion.

If the trustees and officers de facto are intruders, the proper If the trustees and officers de facto are intruders, the proper proceedings to determine that question, and obtain such an ad-judication and their removal, and a new election of trustees an-officers in a lawful manner, must be taken and prosecuted else

The question presented here is, whether the rights
of the various parties in the property in question and its proceeds are not so entangled and involved that it is essential that
they be adjusted in one sait, and that the parties be enjoined
from prosecuting any other side. A statement of the facts
will answer the question: Previous to May, 1854, Gunther and
his wife had mortaged his real estate to fitual for \$2,000, to
Maxwell for an amount, of which \$3,304 is new due, and to
Haistead for \$20,000. On the 24th of the same month, being
involved in debt, he alone made an assignment to Postley for
the benefit of all his creditors, settins forth in a schedule that
he owed Conant \$1,900. This assignment was recorded in the

COURT OF GENERAL SESSIONS—May 14—Before Judge Ressent.

John Ellis, pleading guilty to grand larceny, was sentenced to the State Prison for two years.

Michael Hennessy was indicted for assault and battery with intent to kill. The District Attorney withdrew the charge of intent to kill. The District Attorney withdrew the charge of intent to kill. The District Attorney withdrew the prisoner to the rest of the indictment. He had been guilty of the offense of striking Capt. Dowling of the Sixth Ward with a cart-rung, about the middle of January last, and resisting the officer in his efforts to arrest a prisoner, secreted in Hennessy's house, and combining with others to resist the officer. He first pointed a pixtol at Dowling and then raised the cart-rung. The case had been tried before, but in consequence of the long incarecration of Hennessy, since the Zist of January last, and his penitent manifestations, the Court was disposed to be lexicent, and sentenced the defendant to use year in the Penitentiary.

Benjaham Dunham, having plend guilty to a clarge of forgery, sexterday morning appeared and sixed the Court to withdraw that plea and allow him to enter a plea of not suilty and now have his trial, as he had been decreted and missed in entering the first plea, not understanding his own rights and the necessities of his own case. The Court was disposed to be lenient, and declined then to give an answer, the Judge saying he would take time to consider. This morning the same prisoner again appeared, and the Judge observed he had examined curefully all the authorities bearing on the question, and was satisfied from that examination he had no power after a plea of guilty was once made to a charge to allow the prisoner to withdraw it and substitute one of not guilty. The crime of Dunham was that of forging a check on the Bank of Commerce to the amount of \$6.4.8. The guilt of the defendant appeared beyond dispute. He was a young looking man, respectably dressed and intelligent appearance. The Court proceeded at once t

The most marked feature of the Beard to-day was

the activity in Cleveland & Toledo, of which about 15,000 shares were sold, of which 8,600 shares were regular, or three days option. The market was quite irregular, but improved under these large sales to 682, having opened at 68. It afterward fell back to 68, but rallied and closed at 68f, an improvement of i W cent on yesterday's price. Southern Michigan shows a further advance of | V cent., selling at 68. Illinois Central cash stock is quite scarce, and the market is buoyant. The deliveries are made with difficulty. Immediately after the Second Board 1384. regular, was bid, and later a sale

was made at 139, seller thirty, an advance of 3 ♦ cent since yesterday. Erie is heavy and closed at 41 2 411. The business was quite moderate to-day in this stock. Cleveland and Pittsburgh recovered to 464. The dividend of 1st July is officially stated at 31 P cent, cash. The Western shares, with the exception of those names were generally neglected and rather heavy. New-York Central was without change, but closed weak. Reading, after the Second Board, was ffered at 80, buyer ten. The best bid was 791. Railroad Bonds are quiet. The advices by the George Law improved Californias 3 P cent; a sale being made as high as 52. The whole market after the Second Board presented a languid appearance with more buyers than sellers. A marked feature of the Morning Board was, that of the 16,000 shares stock sold, only 1,100 were taken on buyers' option beyond

The applications for the guaranteed stock of the Michigan Southern Railroad Company are now com ing in freely from stockholders in the interior. The amount taken up to this afternoon is 33,480 shares. which with the 2,000 shares reserved for foreign States, gives \$3,548,660, nearly \$550,000 more than the amount to be distributed. Among the subscriptions to-day are Horace White, 1,000 shares; Hamilten White, 250 shares; — Shedell, 500 shares; and Clark Dedge & Co., 600 shares. The largest subscription which has been made was by Travers & Je ome, 1,500 shares.

The following is a statement of the earnings of the New-York Central Railroad for the month of April 1857, compared with its earnings for the corresponding month of the preceding year:

The business of the Clearing-House was large-

35,408,600. The aggregate amount of specie transported over the Panama Railroad during the last two weeks is

nearly 2,400,000, as follows: 

The Milwaukee and Horicon Railroad Company are receiving subscriptions to their land stock at their office No. 47 Exchange-place. Instead of submitting the delay and expense of an application to Congress for a grant of land (the success of which would be very doubtful), this company is about to purchase directly from Government a million acres of the valuable lands through which the road is contemplated to be run-one half of the land to be applied to the construction of the road, and the other to be divided

among the holders of the stock. The old and highly respectable house of Strachan & Scott will retire from business on the 1st of June. We understand that the important link in the chain of roads between New-York and Pittsburgh, the Allentown and Auburn road connecting the New-Jersey Central line with the Pennsylvania Central has been

placed under contract. Messrs, Clark, Dodge & Co. advertise for sale in another column, bonds of the Cities of Davenport and Keckuk, and of Lee County, Iowa.

Judge Wright of the Circuit Court has denied the motion for the appointment of a Receiver for the several roads composing the Troy Union Railroad Company, in order to secure the City of Troy the sums due it from those roads, as well as to collect such other sums as might fall due to the city pending the litigation now going on between the city and the roads.

The receipts of the Mutual Life-Insurance Company for the quarter ending 30th April were \$235,822 09, and the disbursements for the same quarter were \$82,183 16.

C. P. Laird, Chatham, C. W., assigned.

The dry goods trade has almost altogether ceased at wholessie. The Spring trade has come to a sudden close. Prices have given way. The jobbers have been buying cheaper from the importers; and consequently selling cheaper. Though the importers have been suffering, the public have been gainers by the reduction in prices. The anction sales are becoming few. The stock of staple goods has been much augmented, and being held over, will check the importations a little for the Fall trade. Fancy silks have portations a little for the Fall trade. Fancy silks have been sacrificed without remorse. Black and staple silks are generally film. The importers of German cloths are complaining of a dull time and low prices, though the cost abroad is increasing. The over-stock here will lessen the amount to be imported after the 1st July. Domestic goods are also dull, and no sales can be effected but at a concession in prices, though holders of cotton goods are mostly firm, preferring to keep them than to sell at a lower rate; but in the meanwhile stocks are accumulating, as production has of been curtailed. Domestic woolens are very inacot been curtailed. Domestic woolens are very inac-

The earnings in each department of the Company's business show a considerable increase over those of the preceding year, the total increase amounting to \$87,401 42. The expenses show an increase of but \$2,315 01. The expenses amount to about 56 per cent of the earnings, being 6 per cent less than the year previous.

The net carnings have been mostly expended in payments to Harlem road, for Norwalk damages, interest, construction and equipment, materials, floating debt (\$72.909), loss on Caral Read, &c., leaving \$135,483 59 cash on hand. The absolute net earnings are stated at \$258,051, equal to 8; P cent on the capital, 3 c cent of which would have been paid to the stockholders in February but for injunctions granted by Judges Peabody and Davies. The capital stock is \$3,000,000, and the bonded debt \$2,159,500. The floating debt is about \$33,000. The double track from New-Rochelle to the junction with the Harlem Road will be completed in October. The company will have a double track throughout the entire line. Every claim for damages at Norwalk has been satisfied. There is not a word in the report showing the slightest desire or intention to do justice to the unfortunate stockholders who were swindled by the President and Transfer Agent of this Company. The managers quietly assume that the decision in the Me-chanics' Bank case has settled the question of their Bability for the Schuyler overissue, although other suits

managers quietly assume that the decision in the Mechanics' Bank case has settled the question of their liability for the Schuyler overissue, although other suits are in existence in the United States Courts, and they reassert the correctness of their despotic separation of "good" and "bad" stock in the following paragraph: "Soon after the discovery of the frauds of Robert Schuyler, a careful and impartial separation of the false from the genuine stock was made by skillful and disinterested accountants; since the decision of the Court of Appeals that the corporation was not liable for the overasue, or fraudulent certificates of Robert Schuyler, the work has been critically and closely examined, and the result is alregether satisfactory, establishing, as it does, the entire correctness of the principle upon which the separation has been made."

At the meeting to-day a gentleman, whose name was not accertained, remarked that at the last meeting he had offered a resolution which was adopted in favor of putting a stop to the carrying of dead-heads on the road, and desired to know whether the spirit of that resolution had been carried out; to which the President replied that the resolution had been carried out in spirit, also to the letter as far as possible.

Another stockholder inquired whether it was necessary to run a train on Sunday, intimating that he thought the Sunday train was to be stopped. The President replied that as long as they had an arrangement to carry the mail it was necessary to run a train expressly for the transportation of the mail, which was, however, run in the evening, and carried no passenter except in extreme cases of emergency, when there was a little laxity allowed in the matter. These explanations appeared satisfactory, and the subject of dividends was broached by Dr. Foote of New-Hav a who thought it rather unwise policy to declare dividends a presented for the last two years, but what had been parteen the Company was in debt. It was like a man selling his own note for 75 cents on the

stop the interest on them for the lack there of your years, and he thought the stockholders would willingly live through it without dividends.

After some further discussion of similar import, the meeting went into the election of Directors. The number of shares represented were 8,717, all of which were cast for the following-named gentlemen, all members of the old Board, with the exception of Mr. Bradley, who was substituted for Wm. B. Astor, who never met or cooperated with the Board: Justus R. Bulkley, New-York: Dennis Kindberly, Nathaniel A. Bacor, New-Haven; George B. Carhart, Abraham R. Van Nest, New-York; John W. Leeds, Stamford, George N. Miller, New-York; William L. Lyon, Greenwich; John Bradley, New-Haven.

On motion, Henry White, esq., was appointed to audit the accounts of this Company for the ensuing year, with the request to make out a semi-annual examination thereof.
